Form Summary

Decision Status Final Decision

Meeting Topic Booking 28 week Rhogam

Speaker(s) and Narrative Book through FMC clerk,
FMC should let our admin know regarding appointment time
Clerk puts client in as outpatient
Midwife puts in order into Epic
This process needs to be further clarified by Claudia

Decision Status Final Decision

Meeting Topic Discharge appointments with paps

Speaker(s) and Narrative Due to pandemic we need to decrease 1 hour appointments.
Defer pap smears or book a separate appointments for pap smears .

Decision Status Final Decision

Meeting Topic Accuro

Form Summary

Speaker(s) and Narrative

Freya asking about a subcommittee for Accuro as it is a large undertaking and could monopolise practice meeting time. Committee volunteers are Alex, Freya, Laurie, Mojgan, Maryam, Amanda.

Meeting Topic

COVID HR Changes

Speaker(s) and Narrative

Clinic Visits: only 15 mins in person with ICDs in the car. If by TTC, follow up ICD to be booked with client on case by case basis. New protocol to be shared on social media. No support people or children.

Medical Masks: Medical masks must be worn in appointments by clients. To be posted on social media, medical masks will be given when needed, but not advertised. Clients are expected to wear medical masks at all home visits.

Transfer of Care: Primary midwives will go if possible based on resources. Tell clients that IOL is TOC and that essential people may be at transfer of care (midwives are only supportive care). Inform clients that in exceptional circumstances, we may be able to attend, but to expect phone call check in. Tama to inform Claudia of change to supportive TOC care plan due to resources. Planned sections to be attended on a case by case basis. Back up midwives not to be called for TOCs, but to do Day 1 visit/Level 1 consult.

Out of Hospital Birth: Tama posted COVID protocols in the admin/midwives slack channel. Recommendation for hospital birth for all COVID cases, but strong recommendation for severe COVID early in pregnancy/active cases. EFM

Form Summary

recommended. Paeds consult for recent COVID positive/symptomatic in the last two weeks may be implemented- Tama to email Dr Azzopardi to also ask how recent COVID dx needs to be for infant testing. All clients planning home must be made aware that due to resources, they may need to give birth in hospital.

EMO Schedule

Speaker(s) and Narrative

Let Freya know of your availability. It has been difficult as not all midwives give enough available weeks.

During pandemic all midwives need to be available when midwives are isolating, etc..
